UNDERCARRIAGE

Komatsu Genuine Undercarriage Assurance

Komatsu Genuine Undercarriage components are manufactured for the continued reliability and performance of your Komatsu excavator in demanding conditions.
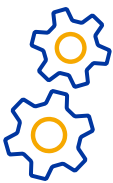

No matter where your excavator is in its life cycle, Komatsu offers a variety of undercarriage options so you can match your undercarriage with your needs to minimize operating and maintenance costs while extending the life of your Komatsu machine.

General Construction Undercarriage is a competitively priced, quality undercarriage that will meet your production needs, while carrying the support and technology not offered by other manufacturers.

Industry-leading standard warranty
All Komatsu parts carry a 12-month/unlimited hour warranty.

Note: All comparisons and claims of improved performance made herein are made with respect to the prior Komatsu model unless otherwise specifically stated.

Komatsu Fit and Durability

Manufactured specifically to fit on Komatsu excavators, Komatsu Genuine Undercarriage components are engineered to the exact specification of surface hardness and depth of hardness required for the most durable undercarriage life of your Komatsu machine in the demanding conditions.

Industry-Leading Assurance Coverage

All Komatsu Genuine Undercarriage are supported by Genuine Undercarriage Assurance — the longest assurance coverage in the industry. General Construction carries 4 years, 5,000 hours of coverage on leakage and breakage.
