

## Introducing the D71PXi-24 - Komatsu's largest and newest HST dozer with iMC 2.0

### 1. New Design

- Slant nose design with increased visibility to blade and work area
- Increased operator efficiency

### 2. Updated Cab Design

- Improved safety feature with operator presence seat sensor
- Electronic lockout switches
- LED work lights

### 3. HST

- With a larger blade and more HP per ton, the increase in output of the D71PXi-24 will boost productivity

### 4. New Machine Control Functions

- Quick drop blade setting
- Fast mode steering
- 4 transmission ground speed pre-sets
- F-N-R shift mode
